Overland -
Japanese Aiports Vol. 1

EUR 22,61
ex VAT 19,00

Overland from Japan has been producing their Japanese Airports series add-ons for FS2004 and FS2002 for many years. Volume 1 includes highly detailed airports made with Gmax. The texture of surface of the earth around the airport uses aerial photographs (some four square miles). All "Japanese Airports series" contain the "Aeronautical Information Publication Japan (AIP Japan)" PDF version with Instrument Approach Charts, Visual Landing Charts and Standard Instrument Departures.

Airports Featured in Volume 1:
KUMAMOTO(RJFT), AMAMI(RJKA), WAKKANAI(RJCW), OITA(RJFO) and SENDAI(RJSS).
